• Please note that you can only count 6 units of thesis credit (PSY 699) toward your degree. However, you may end up taking more units because you must enroll for PSY 699 each term while you are working on your thesis.
• Students must have completed an undergraduate Health Psychology course prior to admission or successfully pass an exam covering basic concepts from an undergraduate Health Psychology textbook prior to starting the program.
• Please note that many of our graduate courses have prerequisites and follow a specified sequence.

NO CREDIT TOWARD DEGREE FOR PSY 685
